

BRIEF BIODATA

I am Dr. Namrata Agarwal Mahansaria, Breast Oncoplastic Surgeon and Director, Centre for Cancer and Breast Diseases at RINCHI Trust Hospital, Ranchi. Trained at Kasturba Medical College, Manipal, and thereafter at Tata Medical Centre, Kolkata, I went on to gain corporate experience at Fortis Memorial Research Institute and Paras Hospital, Gurgaon — before choosing to come home to Jharkhand.

That return was a deliberate choice — rooted in the belief that specialised breast cancer care must reach the regions that need it most. It has been the most meaningful chapter of my professional life.

ABSI has been a constant companion through this journey. Over the years, I have had the privilege of contributing as faculty, moderator, speaker, and organiser at conferences and regional programmes. Organising Breast Cancer Today - 2026 in April at Ranchi — with over 200 delegates, national faculty, and a live operative workshop — in association with ABSI, ASI Jharkhand chapter and RIMS medical college is a milestone I hold close.

Beyond the operating room, I remain committed to reaching women where they are — through JIVISHA Cancer Support Group and the Neighbourhood First Initiative, bringing awareness and early detection to communities across communities and villages of Jharkhand.

I am a surgeon, married to a cardiologist, and a mother to two young daughters who keep me grounded and inspired every day. Breast cancer care in Eastern India deserves a strong voice, and I would be honoured to represent that voice and serve the East Zone through the Executive Committee.
