

## Dr. Vani Parmar

MS, DNB (Surgery)  
HOD Breast Oncosurgery, Surgical Oncology  
KIMS Hospitals, Thane 400607

---

With over 38 years of surgical experience, including more than 28 years dedicated exclusively to breast cancer surgery and research, I have worked extensively in breast conservation surgery, oncoplastic and reconstructive breast surgery, implant-based and autologous reconstruction, and special interest in management of young women with breast cancer. I currently serve as Head of Department, Breast Oncosurgery at KIMS Hospitals.

Over 25 years at Tata Memorial Centre and ACTREC, I have been actively involved in breast cancer academics, management, clinical and translational research, including multicentric randomized clinical trials under the National Cancer Grid. My work has also included collaborative research in AI-based diagnostic oncopathology in breast cancer and pioneering applications of 3D printing in cancer care.

As a founder member of Association of Breast Surgeons of India, I have previously served as Executive committee ABSI member 2013-2015 and as Director Education ABSI, West Zone from 2017-2019. I have remained committed to mentoring young breast surgeons and contributing to national breast cancer guidelines and collaborative academic initiatives. My academic contributions include more than 130 publications, including several book chapters, and active participation in postgraduate education and training.

I have been closely associated with ABSI educational activities since its inception, contributing through lectures, workshops, live surgical demonstrations, debates, scientific sessions, and consensus guideline development. I have also delivered invited lectures, keynote addresses, and orations nationally and internationally, including the prestigious EJSO Oration at the ABS-BASO meeting in the UK, and invitation to deliver lecture at the Royal College of Surgeons of Glasgow.

With a deep commitment to advancing breast cancer care in India, I seek to further contribute through my nomination for President-Elect of ABSI.
